- *Battery or AC Mains Operation...Power Off Data Protection*
- *Robust, DoD Implemented SHA256 Encrypted File Security*
- *Standard Video Format...No Special Software or CODECS*
- *Files are Compatible with most Case Management Software*

KEY FEATURES...

Latest Camera Technology – *LXR* incorporates the latest megapixel camera technology, ensuring unsurpassed image quality in any interview environment. The rear facing camera (subject) may be recorded full screen or in a picture-in-picture configuration including the front facing camera (interviewer) as an insert. Legaltek offers accessory camera/microphone/cable kits for *LXR* use in multi-camera or in a fixed installation environment.

Professional Microphones – The sensitive, auto-gaining, professional MEMS silicon array microphone system targets subject voices while suppressing environmental noise. Active audio processing enhances the intelligibility of soft-spoken subjects and increases the accuracy of interview transcriptions.

Simple Button Control – *LXR* is designed for ease-of-use and features one-click operation to start and stop recordings. The intuitive control interface, touchpad keyboard and high-resolution display make the entry of case information, event tagging and system operation almost second nature. The file database is searchable by date or by case information.

Selective File Capture – The *LXR* can record files to the internal HDD, dual optical DVD-ROM drives or to both simultaneously. Finalized DVDs are typically available in <1 minute. Files may also be immediately exported to removable solid-state memory.

Standard Video Format – *LXR* records video in the standard .MP4 format allowing files to be immediately exported via USB or DVD. Recordings can be played by the viewer's choice of application without any special software or codecs. Secure, recorded files are compatible with most agencies existing enterprise case management software.

Our technical group has provided purpose-engineered solutions for law enforcement professionals, Child Advocacy Centers and government entities for over 25 years.

- No License Fees
- Unlimited Users
- No Charge Software Upgrades
- One Year Factory Warranty
